

Thank you for purchasing the Stratos Meccanica Strada, the only concealed quick disconnect license plate assembly on the market. We take pride in our patent pending designs and know you will reap the benefits through the usage of our product. Our components are made of the highest-grade aerospace alloys and high strength automotive polymers right here in the USA. This means we can offer a limited lifetime warranty which guarantees the product as long as you own your vehicle.

This product is engineered from the ground up to withstand the dual personalities of modern-day vehicles whether it be on the track or around town. With that same spirit, we welcome you to the Stratos Meccanica family of products and if you have any questions at all during the install process, feel free to reach out on social media for assistance.

Sincerely,

The Stratos Meccanica Team
